

Bridge Scoring Simple

Guide

Simple to print instructions for using Bridge Scoring.

I made this app to help you keep score for a bridge game.

Put It On Your Mac

- 1 Open the file I sent you.
- 2 If a window opens with Bridge Scoring and Applications, drag Bridge Scoring onto Applications.
- 3 Open Applications.
- 4 Double-click Bridge Scoring.
- 5 If your Mac says it cannot open the app, call me.

Open The App

- 1 Double-click Bridge Scoring.
- 2 Wait for the home screen to appear.
- 3 If something looks wrong, close the app and open it again.

- 4 If it still does not work, call me.

Turn On Photo AI

Do this one time.

- 1 Click Settings.
- 2 Click the OpenAI Key box.
- 3 Paste the key I sent you.
- 4 Click Save Key.
- 5 When it says Saved. Photo AI is ready., you are done.

Start A New Game

- 1 Click New Session.
- 2 Leave the usual choices alone unless you need to change them.
- 3 Click Create Session.
- 4 When the app says the game was created, click OK.

- 5 Click Events to see the boards for the game.

What The Main Buttons Mean

Use these buttons from the top of the app.

- 1 Home takes you back to the first screen.
- 2 New Session starts a new bridge game.
- 3 Events shows the current game and all of its boards.
- 4 Scan reads a score sheet photo.
- 5 Results shows standings and board results.
- 6 Board Entry lets you type one board by hand.
- 7 Settings is where the Photo AI key is saved.

Find The Boards

Use Events when you want to work board by board.

- 1 Click Events.
- 2 Look under Boards.
- 3 Find the board number you want.

- 4 Click Scan on that board.
- 5 The app will open the photo screen for that board.
- 6 After importing, click Results to check the board.

Enter Scores With A Photo

This is the main way to enter scores.

- 1 Click Events.
- 2 Find the board you want.
- 3 Click Scan on that board.
- 4 Choose a clear photo of the score sheet.
- 5 Click AI Parse & Import.
- 6 Wait while the app reads the photo.
- 7 Click Results.
- 8 Check that the scores look right.

Take A Good Photo

A clear photo helps the app read the score sheet correctly.

- 1 Put the score sheet flat on a table.
- 2 Make sure the whole sheet is in the picture.
- 3 Use good light.
- 4 Hold the camera still.
- 5 If the photo looks blurry, take another one.
- 6 If the app reads something wrong, fix it on Results.

See The Results

- 1 Click Results.
- 2 Look at Final Standings to see the current scores.
- 3 Scroll down to Board Results to check each board.
- 4 Click Export Text if you want to save a copy.
- 5 Do not click Clear Results unless you want to erase the scores and start over.

Fix A Mistake

- 1 Click Results.
- 2 Find the row with the mistake.
- 3 To remove the row, click the red X.
- 4 To change Made or Down, double-click the number and type the right one.
- 5 Press Enter or click away to save the change.
- 6 If you are not sure what to change, call me before deleting anything.

Type A Score By Hand

Use this only if the photo reader misses something.

- 1 Click Board Entry.
- 2 Pick the board you are scoring.
- 3 Tap the contract number.
- 4 Tap the suit.
- 5 Tap Doubled or Redoubled only if needed.
- 6 Tap who played the hand.
- 7 Tap how many tricks were made.

- 8 Check the score shown on the screen.
- 9 Click Save & Next Board.

Board Entry Details

These are the choices on the hand-entry screen.

- 1 Select Board chooses which board you are scoring.
- 2 Level is the contract number, from 1 to 7.
- 3 Suit is Clubs, Diamonds, Hearts, Spades, or No Trump.
- 4 Doubled and Redoubled are only used when the contract was doubled.
- 5 Declarer is the player who played the hand: N, E, S, or W.
- 6 Tricks made is the total number of tricks won, from 0 to 13.
- 7 Calculate Score shows the score without moving to the next board.
- 8 Save & Next Board saves the score and moves forward.

If Photo AI Does Not Work

Try these steps before typing everything by hand.

- 1 Click Settings.
- 2 Make sure it says an OpenAI key is saved.
- 3 Go back to Scan.
- 4 Try a clearer photo.
- 5 If it still does not work, call me.

Close The App

When you are done, close the window like any other app.
